

The Use of CPA Canada Cases and Learning Materials by Post-Secondary Institutions

Post-secondary institution professors and instructors may choose to incorporate past Uniform Evaluation (UFE) and Common Final Evaluation (CFE) cases into their courses, and certain cases can be used for this purpose without formal permission from CPA Canada. The cases that can be used without permission are included in the list below*.

This case list will be updated twice per year and supersedes all UFE and CFE case permissions that have been granted by CPA Canada. If you wish to use a case or educational material that is not included on this list, or if you have any questions regarding use of these cases, contact Permissions@cpacanada.ca. Permission will not be granted for materials that are or may be in use in the CPA education programs.

Instructors of post-secondary accredited programs whose students enter the CPA PEP at Capstone 1 or Capstone 2 may use all past UFE and CFE Board Reports (and cases therein) that are not included in Capstone 2 without explicit permission from CPA Canada. Refer to the [list of Capstone 2 cases](#) that are currently in Capstone 2 and may not be used.

Instructors of post-secondary accredited programs whose students are eligible to write the CFE upon program completion (and thus do not take Capstone 2 of the CPA PEP) may use all past UFE and CFE Board Reports (and cases therein) without explicit permission from CPA Canada.

This policy applies to organizations that are Canadian post-secondary institutions (i.e.: colleges and universities). Organizations that are not Canadian post-secondary institutions may not use CPA Canada cases or educational materials.
